MESSAGE FROM THE MINISTER

I am pleased to introduce you to the British Columbia Manufacturers' Directory for 1984.

Nearly 4,500 companies are listed. They manufacture over 2,000 products, some of which are new, while others are unique to British Columbia. These companies range in size from one-man shops to multi-million dollar operations. The diversity, vitality, and expertise of British Columbia's manufacturing and processing sector is a major strength of the province's economy. In 1983, for instance, shipments of B.C. manufactured goods were valued at $16.8 billion dollars. I believe B.C. manufacturers will contribute significantly to our economic recovery. I urge you to "Buy British Columbian" to help strengthen our economy, which will, in turn, benefit all of us.

If you would like to know more about manufacturing in British Columbia or about any of the manufacturing assistance programs available, please contact the Ministry of Industry and Small Business Development at either one of the following locations: 5th floor, 1405 Douglas Street, Victoria, British Columbia V8W 3C5 or Suite 315, Robson Square, 800 Hornby Street, Vancouver, British Columbia V6Z 2C5.

DON PHILLIPS
Minister of Industry and Small Business Development

PART II

PRODUCTS MANUFACTURED IN BRITISH COLUMBIA LISTED ALPHABETICALLY

Detailed company addresses are listed in the white pages of this directory.

In order that articles of a similar nature will appear close to one another in the Directory, the word of the heading considered most important has been placed first; i.e., furniture, household, bedroom; fish, canned; salmon, canned; castings, brass or bronze. In cases where the inversion seems misplaced, the headings have been listed in their customary sequence. Precise commodity descriptions are used wherever possible.

To facilitate the work in compiling the Directory, abbreviations have been resorted to, such as "Co. Ltd." for "Company Limited."

The asterisk (*) against the company names on the following pages denotes companies engaged or interested in export trade.

The dagger (†) against the company names on the following pages denotes companies covered by B.O.S.S. (see explanation after the introduction page.)
